Rajasthan, India.

2020

SKILL SUMMARY

• **Languages, Frameworks & Libraries:** C++, Python, Javascript/Typescript, HTML, CSS, React.js, Express, Nextjs, Node.js, Tailwind CSS, Mongoddb, Angular, Django, PostgreSQL, Auth0, JWT, SASS.

• **Tools & Platforms:** GIT, Docker, Vite, Windows, VS Code, Github, Linux, AWS.

PROJECTS

• **The To-do** : The To-Do Manager is a robust web application designed to help users manage their daily tasks efficiently. Developed as a side project, this application emphasizes simplicity and ease of use while incorporating advanced features to cater to user needs.

Tech used : Reactjs, Nodejs, MongoDB, JWT / Auth0.

• **The Medication Reminder & order** : The Medication Reminder and Order System is an innovative web application designed to assist users in managing their medications. The application allows users to upload photos of their prescriptions or manually enter their medication details. It then provides timely reminders and facilitates easy medication orders (working on it).

Tech used: Django, Auth0, JWT, OpenCV, AWS.
